

Training on New Indiana Residential Code

Effective January 1, 2020, Indiana's statewide residential code will be updated to the 2018 International Residential Code with Indiana amendments. The Indiana Residential Code governs the construction of Class 2 structures, which include one- and two-family dwellings and townhouses.

Indiana Builders Association, in partnership with the APA, will host full-day training focused on the significant changes to all aspects of the code including: building, energy conservation, plumbing, mechanical, fuel gas, and electrical. Training is open to builders, trade contractors, and building officials.

Space is limited, so register early to reserve your seat. Registration will end one week prior to each training.
